

IDMxS

INSTITUTE FOR
DIGITAL MOLECULAR
ANALYTICS & SCIENCE

PhD positions available

Who are we?

- **IDMxS** is a recently established Research Centre of Excellence located at Nanyang Technological University (NTU) in Singapore.
- We have **PhD scholarships** available through NTU's Interdisciplinary Graduate Programme (IGP).
- We explore **interdisciplinary research** in molecular analytics, optical and electrochemical sensor technology, data sciences, interfacial chemistry, and more.
- Our research aims to interface the biological world and the data sciences, by developing integrated systems to monitor disease threats, population health, food safety, the environment, potential security threats and more.

Who can apply?

- We are looking for outstanding applicants with diverse backgrounds in science, technology, engineering, and mathematics.

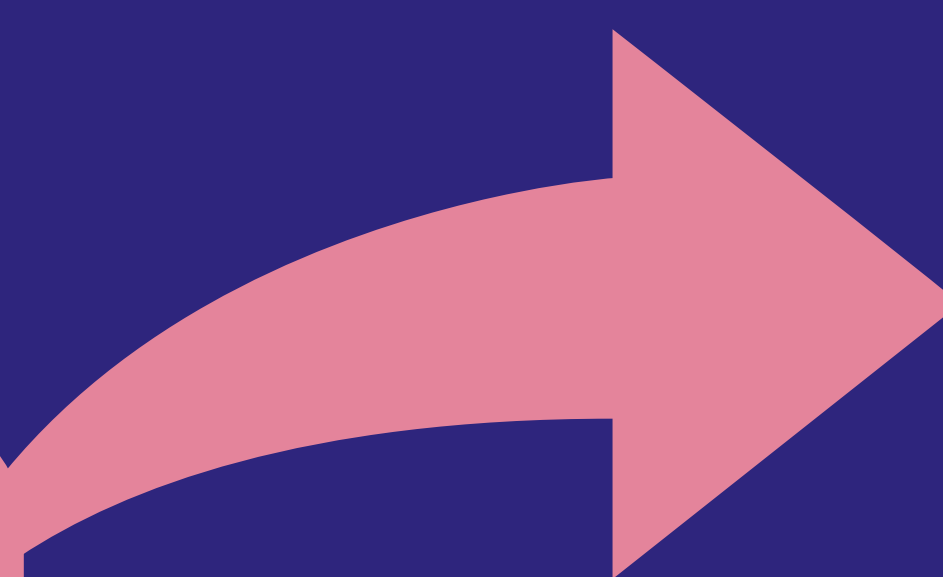

IGP Applicants and IGP-Global Asia Applicants

Local Degree	Relevant Bachelor's Degree with at least 2nd Upper Honours / Honours (Distinction)				
Overseas Degree	Relevant Bachelor's Degree: China – Average grade of $\geq 85\%$ India – 1st Class Honours (with Distinction) Rest of the World – 1st Class Honours or equivalent	+	Any of the following: TOEFL ≥ 105 IELTS ≥ 7.0 Certificate tertiary studies were conducted in English	+	Graduate Record Exam (GRE): V ≥ 153 Q ≥ 149 AW ≥ 3.5 Total V+Q ≥ 319 Or GATE Score $\geq 97\%$

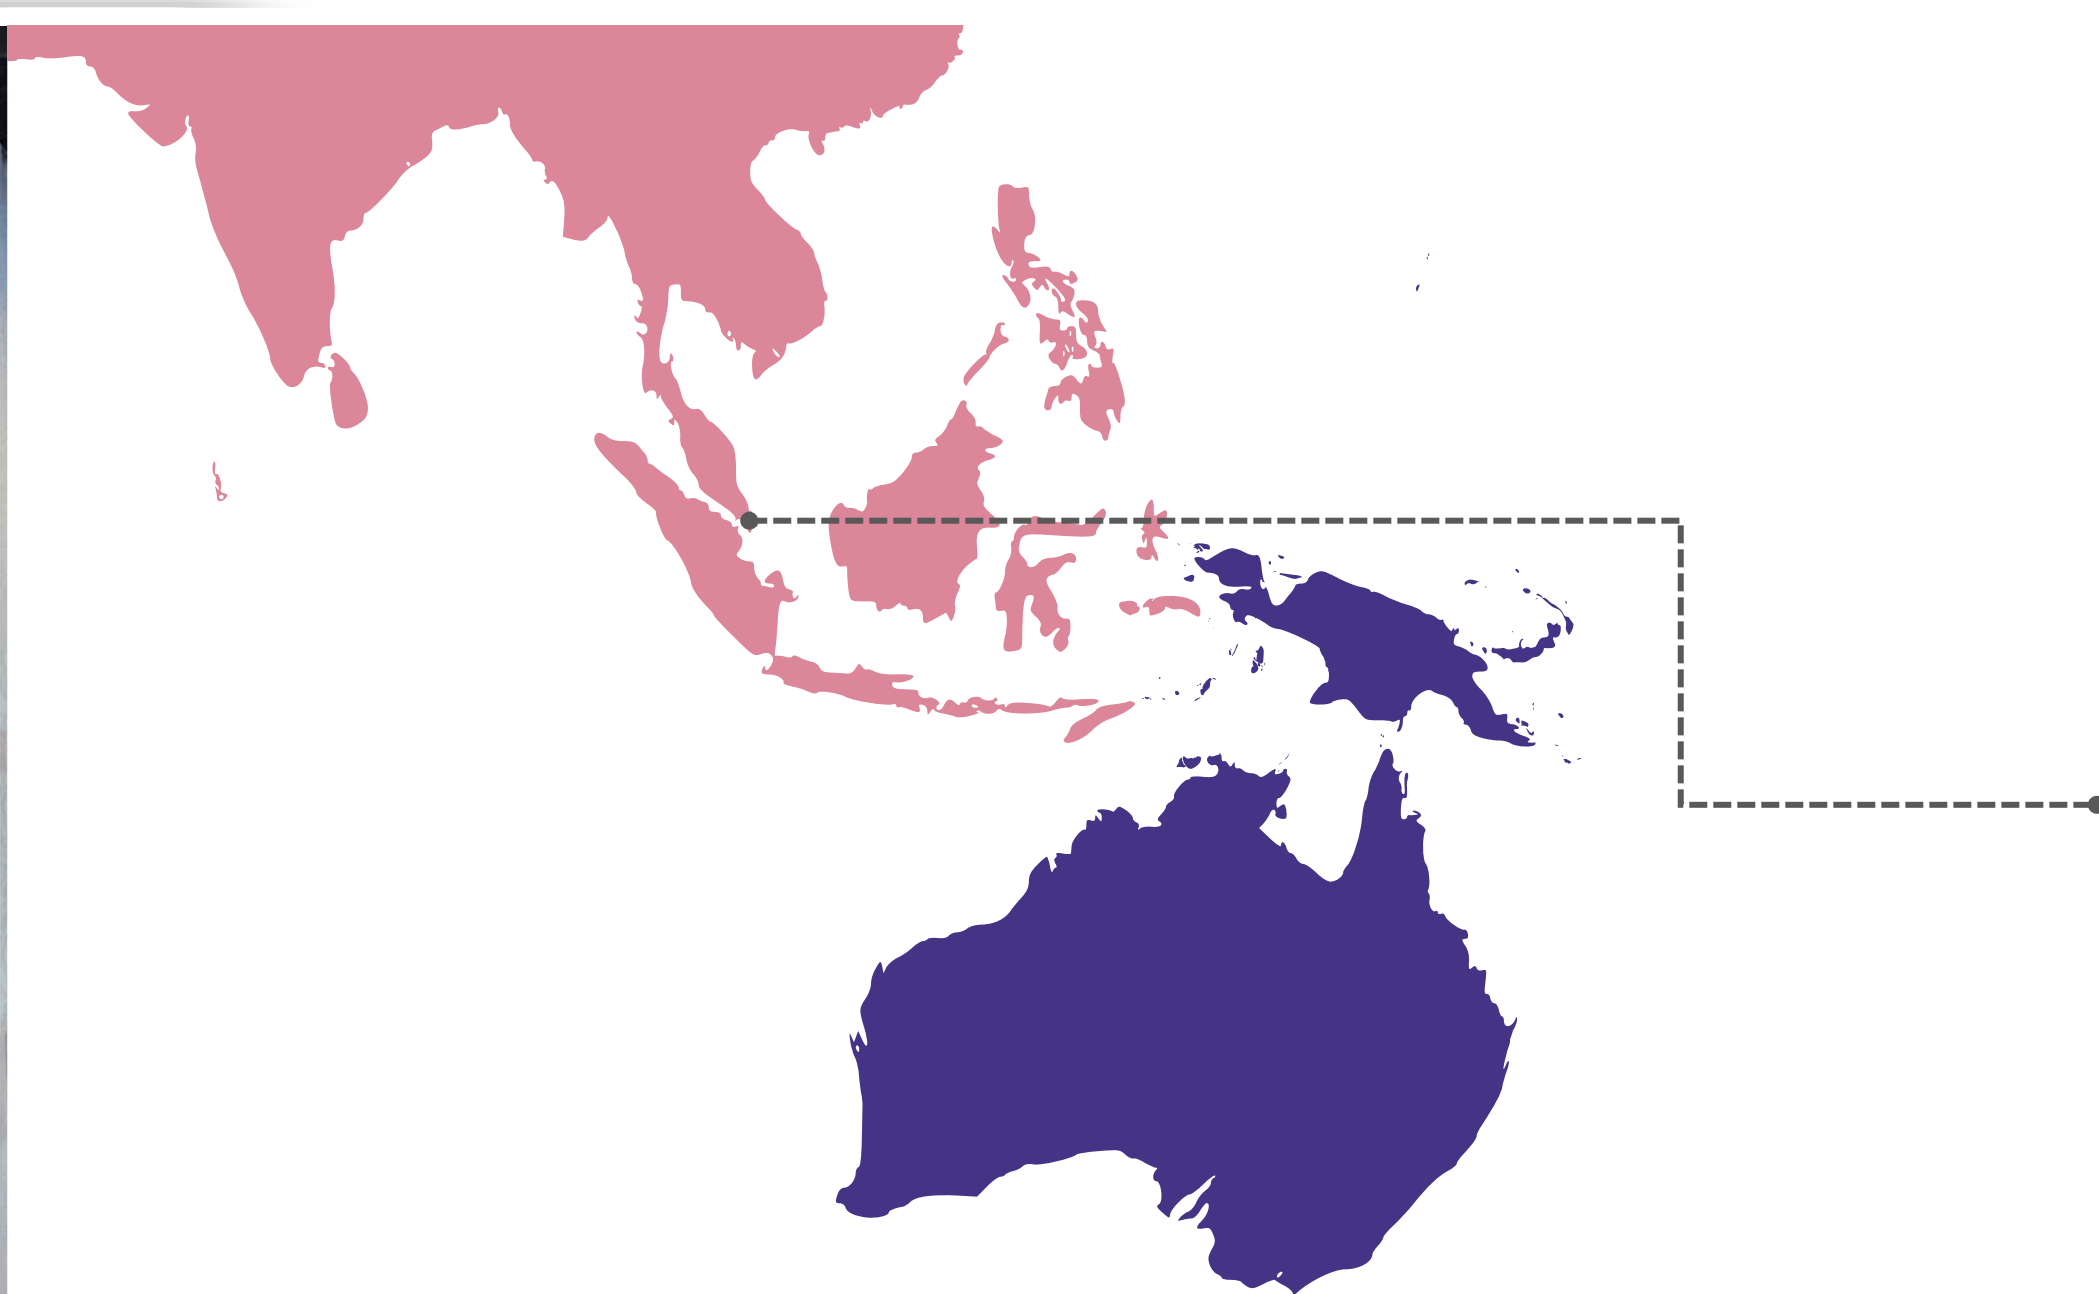

How to apply?

- Submit your online application via **the NTU application portal**.

Admission	Application deadline
January Semester	31 July 2025
August Semester	31 January 2026
